PROFILE

My name is Andrii. I am 19 years old. I am from Ukraine. I am a student of Igor Sikorsky Kyiv Polytechnic Institute since 2020.

I can describe myself as attentive and hardworking person, I have experience working in team, know how to work together and keep friendly atmosphere. Also can create and control my schedule, it helps me to control my time during the day and increase my productivity.

I have understanding in general how work Internet, HTTP requests from browser to server, and how it processed. Know difference between OOP and OOD and work with it on practice. Also used MVC pattern of developing.

Now, I working with my pet-project Survey Website using React and Bootstrap for Frontend part and PHP for Backend and MySQL database.

I am planning to improve skills that I have now. Besides I want to acquire new skills for future career advancement in Backend and Fullstack development.

EMPLOYMENT HISTORY

Freelancer

Sometimes had worked as Freelancer, before university started. Have experience communication with clients and making layout of sites by mock up. Also worked with and Bootstrap to create front-end, and worked with JS for background manipulations.
